PROFESSIONAL SUMMARY:

A passionate and results-driven Software Developer with a strong foundation in full-stack web development, and RESTful API integration. Possesses hands-on experience in building real-world web applications using the MERN stack. Proven ability to work collaboratively on innovative projects and continuously learning new technologies to solve real problems. Strong communicator, problem solver, and team player seeking to contribute to forward-thinking tech teams or organizations.

EDUCATION:

- B.Sc. Computer Science, Precious Cornerstone University

TECHNICAL SKILLS:

- Programming Languages: HTML, CSS, JavaScript, Python, Mongo DB, Express.js, React.js, Node.js, Tailwind CSS, Next.js, Firebase, REST APIs
- Databases: SQL, MongoDB
- Tools & Software: Visual Studio Code, Git, Git Hub, Postman

SKILLS HIGHLIGHT:

- Ability to work successfully with team members in achieving targeted goals
- Excellent in critical thinking and developing innovative ideas in solving problems

Projects

- **Web Development Tutor**
Delivered hands-on training in HTML, CSS, JavaScript, and React. Guided beginners through real-world projects, code reviews, and debugging sessions.
- **Library Management System**
Built a MERN-stack web application to manage books, users, and borrow records. Integrated secure authentication, an admin dashboard, and RESTful APIs.

- **Tech Company Website**

Developed a fully responsive corporate website using Html, CSS and Javascript. Added animated UI elements, service detail pages, and a functional contact form.

- **Other Projects – [GitHub Portfolio](#)**
